

# 32nd Annual Hampton Roads TRAUMA Symposium

**New Era, New Problems: The Latest and Greatest Preventative Measures in Trauma**

**Friday, April 19, 2024 | 7 a.m. to 5 p.m.**

**7-8 a.m.**

**Registration and Continental Breakfast**

For details on CMEs/CEUs,  
agenda and more

**8-8:10 a.m.**

**Welcome**

**Scott Reed, M.D., FACS**

Trauma & Acute Care Surgeon  
Chair, Hampton Roads Trauma Symposium  
Riverside Regional Medical Center

**SCAN ME**

**8:10-8:55 a.m.**

**Mobile Integrated Health Care: What's Going On in Our Region**

**Amy C. Ashe, NREMT-P, MHA**

EMS Field Coordinator,  
Community Health  
Peninsula EMS Council

**OBJECTIVES:**

- 1) Describe what Mobile Integrated Health Care programs are and how they are functioning in our region.
- 2) Describe the Mobile Integrated Health Care program to bridge the gap between traditional EMS and community-based health care.

**8:55-9:40 a.m.**

**Using Data To Bust the Myths and Take Action To Reduce Inequities in Prehospital Pain Management**

**Remle P. Crowe, Ph.D., NREMT**

ESO

**OBJECTIVES:**

- 1) Identify at least three clinical areas with evidence of racial and ethnic disparities in prehospital care.
- 2) Discuss at least three reasons for racial and ethnic disparities in prehospital pain management.
- 3) Describe the current proportion of patients with long bone fractures who receive analgesics by EMS.
- 4) Discuss the IHI Model for Improvement and how it can be applied to reduce inequities in prehospital analgesics.

**9:40-9:55 a.m.**

**Break**

**9:55-10:40 a.m.**

## **The Importance of Trauma-Informed Care for Victims of Violence**

### **Kamron Blue, LCSW**

Safer Futures Program Coordinator  
Children's Hospital of The King's Daughters

### **OBJECTIVES:**

#### ***Trigger Warning***

- 1) Review Forensic Nursing Services.
- 2) Discuss Hospital-Based Violence Intervention (HVIP) Services.
- 3) Review the neurobiology of trauma.
- 4) Review the principles of Trauma-Informed Care.
- 5) Discuss vulnerable populations.
- 6) Review ways to create a Trauma-Informed Environment.
- 7) Understand Vicarious and Secondary Trauma.
- 8) Address self-care.

**10:40-11:25 a.m.**

## **Optimal Prehospital Resuscitation and the Use of Whole Blood in the Field**

### **Amir Louka, M.D., FAEMS**

Regional Medical Director,  
Peninsula EMS Council  
Operational Medical Director,  
James City County Fire Department  
Assistant Professor, VCU Department  
of Emergency Medicine  
Associate Program Director,  
VCU EMS Fellowship

### **OBJECTIVES:**

- 1) Review and discuss the role of whole blood for prehospital resuscitation of hemorrhagic shock.
- 2) Discuss the results of a novel pilot program deploying whole blood in James City County, Virginia.
- 3) Establish goals for the continued development of regional and statewide blood programs.

**11:25 a.m.-12:45 p.m. Lunch**

**12:45-1:30 p.m.**

## **When the Miracle Doesn't Happen**

### **Martin Payne, M.D., FACEP**

Riverside Regional Medical Center

### **OBJECTIVES:**

- 1) Define palliative care and its relationship to hospice and curative care.
- 2) Identify the realms of suffering addressed by palliative care.
- 3) Recognize the increasing incidence of trauma in aging patients.
- 4) Identify the most common etiologies of trauma in aging patients.
- 5) Recognize how palliative care can help families and staff members cope with the burden of caring for these patients.

**1:30-2:15 p.m.**

## **Preparing EM Physicians for Critical Access Trauma Care**

**Matt Albright, D.O.**

Riverside Regional Medical Center  
*and*

**Amanda Polsinelli, M.D.**

Riverside Emergency Medicine  
Residency Program Director  
Riverside Regional Medical Center

### **OBJECTIVES:**

- 1) Discuss the importance of training EM physicians in trauma during residency given the fact that the majority of injured patients will be seen primarily by EM physicians as their first point of contact prior to transfer to a trauma center.
- 2) Discuss the roles that ED residents have in the management of trauma at Riverside.

**2:15-3 p.m.**

## **Point/Counterpoint: Prehospital Point of Care Ultrasound (POCUS)**

**Amir Louka, M.D., FAEMS**

*and*

**Scott Reed, M.D., FACS**

### **OBJECTIVE:**

- 1) Constructively discuss the pros and cons of prehospital point of care ultrasound.

**3-3:15 p.m.**

**Break**

**3:15-4 p.m.**

## **Burn Essentials for Providers**

**Mack Drake, D.O., FACS**

Burn and Reconstructive Centers  
of America  
Burn Center at HCA Chippenham Hospital

### **OBJECTIVES:**

- 1) Review basic pathophysiology of response to burn injury.
- 2) Discuss general principles of emergency burn stabilization and treatment.
- 3) Discuss current management of electrical, chemical and inhalation injury.
- 4) Highlight pediatric burn differences and pitfalls.
- 5) Discuss regional burn mass casualty incident system organization.

**4-5 p.m.**

## **Trauma 360**

**Scott Reed, M.D., FACS**

Trauma and Acute Care Surgeon  
Chair, Hampton Roads Trauma Symposium  
Riverside Regional Medical Center

### **OBJECTIVES:**

- 1) Have a better appreciation of the number and specialties involved in trauma care.
- 2) Better understand their individual roles in the continuum of patient care.
- 3) Gain insight into what patients remember and feel was important during their experience on the trauma service.
